The Foster America Fellowship is an opportunity to radically improve the lives of our nation’s most vulnerable children by designing and implementing innovative solutions to some of the foster care system’s most complex problems. Fellows apply the skills they have cultivated in other sectors as they transition to full-time, 18-month positions at child welfare and human service agencies. In their roles, fellows focus on high-impact reform projects to create better and more equitable outcomes for children, families, and communities affected by child abuse, neglect, trauma, and poverty. Each role is designed to have an immediate and lasting local impact while also informing solutions that can be scaled nationally. Foster America fellows receive extensive training and professional development with a cohort of peers, positioning them to thrive and grow as social change leaders during the fellowship and beyond. This support includes:

- Cutting-edge training focusing on results-driven leadership, human-centered design, child welfare context, and more;
- An influential network of purpose-driven, like-minded professionals including fellows, Foster America staff, and the child welfare field’s most innovative leaders;
- Individualized coaching, mentoring, and support;
- Career development for alumni who pursue leadership positions in child welfare and related sectors;
- An annual salary of $75,000 to $90,000, plus benefits.

**Cohort 3 Recruitment**

We are recruiting 10 extraordinary professionals to join our third fellowship cohort, launching in January 2019. Each fellow is matched to a specific role and host agency, aligned with his or her strengths, skills, and expertise. Specific roles and geographies will be posted in Fall 2019; in the meantime, candidates with skills in these categories are encouraged to submit a general application:

1. Strategy and Operations
2. Design and Marketing
3. Data and Technology

Candidates who advance in our selection process will have the opportunity to express interest in specific projects and locations.

**Roles Available**

1. **Strategy and Operations**

Strategy and Operations fellows are skilled planners and implementers. They are capable change leaders, skilled at working across organizational boundaries, with a demonstrated ability to create, implement, and adapt a shared vision. Strategy and Operations fellows drive decisions, relying on stakeholder feedback, outcome measures, resource availability or constraints, and organizational context. They have experience managing complex and interdependent projects and teams, with strong communication and relationship-building skills.
Sample projects include:

- **Community-Based Prevention Planning.** Prevent child maltreatment and strengthen families by leading a system-wide coalition to improve access to community services. Engage public and nonprofit human service providers as well as local partners such as healthcare professionals and school systems to measurably improve child and family outcomes.

- **Deinstitutionalize Children in Foster Care.** Return children from institutional and group foster placement settings to their families and communities by supporting public and nonprofit agencies as they develop new capacity, change their business models, and create new approaches to serving children and families who have experienced complex and intense trauma.

- **Drive Rapid, Results-Driven Improvement.** Reduce child maltreatment and improve foster care outcomes by enhancing the jurisdiction’s capacity for innovation and change. Lead and facilitate cross-functional agency teams as they generate insights, test ideas, measure results, and improve approaches using micro-experiments. Discover effective approaches, build the evidence base for what works, and scale impactful practices.

2. **Design and Marketing Fellows**

Design and Marketing fellows use human-centered design methodologies to improve the experiences and outcomes of children and families involved with the child welfare system. Through qualitative interviews, experience mapping, persona development, and rapid prototyping, these fellows engage with stakeholders including children, parents, current and prospective foster families, caseworkers, service providers, and community-based organizations to understand their perspectives. Together, they design, prototype, and test new approaches that address pain points in the system, streamline processes, deliver consistent messages, and respond to the needs of the child welfare system’s key consumers.

Sample projects include:

- **Empathy-Driven Early Childhood Supports.** Reduce child maltreatment by helping new parents and their young children access the programs and supports they need and want to be safe, manage stressors, and thrive. Co-design two-generation solutions in collaboration with families to change the points of access, methods of engagement, and array of services available to responsively meet their needs.

- **Break the Homelessness Pipeline.** Design positive transitions for youth leaving foster care and help them navigate the pathway to early adulthood, breaking the pipelines from foster care and juvenile justice-involvement into young adult homelessness. Map the experiences of young people and build new processes that facilitate their access to relationships, resources, housing, educational opportunities, and economic stability.
● **Engage Foster Parents.** Eliminate the shortage of foster parents and ensure that all children live with families who are prepared to provide loving, high-quality care. Design new approaches in collaboration with successful foster families to recruit new caregivers, improve training and licensing processes, and enhance the available supports.

3. Data and Technology

Data and Technology fellows recognize that the disruptive and innovative solutions of our modern lives can be adapted and deployed to improve the well-being of vulnerable children and families. They create, manage, and/or analyze large data systems to help child welfare agencies discover insights, understand trends, and create data-driven, results-based solutions. Fellows demonstrate experience and expertise in advanced statistical analysis, predictive analytics, and/or database development. In addition to being quantitatively or technically skilled, these fellows are also adept translators, able to communicate effectively with stakeholders including social workers and non-technical agency leaders.

*Sample projects include:*

- **Launch Predictive Modeling.** Drive an agency’s use of predictive modeling to reduce the rates of child maltreatment, match families with the services that are most likely to work for them, or target marketing messages to prospective foster parents. Determine predictive factors and incorporate their use into decision-making.

- **Integrate Big Data.** Scope, drive, and oversee development of integrated data systems, collaborating with other public and nonprofit agencies to develop, adapt, and connect their infrastructure and lay the foundation for further analytic and technological advances. Help decision-makers understand children and families in greater context by uniting child welfare, education, health, and other data sources.

- **Develop Technical Solutions.** Set a vision for technological advances by assessing the current state, developing goals, securing required resources, and driving project implementation. For example, improve caseworkers’ efficiency through mobile technology, increase decision-makers’ access to well-visualized data, or develop tools that track foster home availability or schedule transportation for parental visitation.
Eligibility Requirements

- Fellows must have U.S. work authorization.
- Fellows must be able to work full-time for at least 18 months starting in January 2019.
- Fellows must work on-site at their host agency.
- Fellows must pass any host agency employment requirements, which may include criminal background checks, drug screening, and civil service examinations.

Compelling Candidates Are

- Committed to Foster America’s mission of improving the lives of our nation’s most vulnerable children, families, and communities.
- Experienced professionals, with at least seven years of progressive leadership roles and an advanced degree (preferred).
- Results-oriented, with a successful track record of leading change.
- Able to engage stakeholders from diverse backgrounds and build effective coalitions.
- Creative in developing unique solutions to complex problems.
- Flexible, adaptable, proactive, and persistent.
- Exceptional writers and verbal communicators.
- Strong project managers.
- Curious and eager learners.
- Humble and self-reflective leaders.

How to Apply

Applications are accepted online via http://www.foster-america.org/apply.

Review the Application Process + Selection Timeline on the following page for key dates and a description of what is expected at each round. Please direct any questions to recruit@foster-america.org.

To learn more about the fellowship and how to apply, join a webinar! You’ll learn more about Foster America, speak directly with a fellow about their experience, and be able to ask questions about the fellowship and application process. To see the schedule of webinars, check out http://www.foster-america.org/webinars.

To learn more about Foster America:

- Listen to Sherry Lachman on NPR about the long-term consequences of separating families at our borders.
- Watch this video of a fellow describing his experience working with the Department of Children, Youth and Families in Rhode Island.

## Application Process + Selection Timeline

<table>
<thead>
<tr>
<th>Round 1:</th>
<th>General Application</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>General Application</strong></td>
<td>General applications will be accepted until September 24, 2018. The application will close at 11:59pm ET. We strive to respond to every general application within two weeks; thank you for your patience with slightly longer response times during high volume periods.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Round 2:</th>
<th>Phone Interview</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Phone Interview</strong></td>
<td>Promising candidates will be invited to 45-minute phone interviews with a Foster America staff member starting in August and concluding in October.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Round 3:</th>
<th>Video Interview + Placement Application</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Video Interview + Placement Application</strong></td>
<td>Select candidates will participate in one-hour video interviews. Candidates will also apply to specific fellowship projects at participating host agencies.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Round 4:</th>
<th>Finalist Day + References</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Finalist Day + References</strong></td>
<td>Finalist candidates will be invited to a day-long event that includes one-on-one and group interviews. This round will require advance submission of a writing exercise. Finalist Day takes place on Friday, November 2 in Seattle, WA or Monday, November 5 in Washington, DC. Travel and lodging costs will be covered by Foster America. References will be collected and contacted in advance of Finalist Day.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Round 5:</th>
<th>Host Agency Match Interview</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Host Agency Match Interview</strong></td>
<td>By November 16, top candidates from Finalist Day will be invited to on-site visits at the host agency where they are likely to match. The host agencies have final hiring authority, and job offers may be contingent upon completion of civil service hiring processes and other requirements, including background checks.</td>
