BIOSTATISTICIAN
Biostatistics and Quantitative Science Shared Resource (BQS-SR)
Division of Quantitative Sciences, University of Florida Health Cancer Center

The University of Florida Health Cancer Center (UFHCC) invites applications for a biostatistician. The position reports directly to the Director of the UFHCC Division of Quantitative Sciences and Biostatistics Shared Resource.

Company Information: The UFHCC stands alone in the state in our unique ability to blend comprehensive patient care and innovative research in a collaborative, multi-disciplinary environment. Our membership consists of more than 230 researchers, clinicians, and educators throughout UF and UF Health, all dedicated to providing the residents of Florida with leading-edge cancer care and conducting original research for the prevention, early diagnosis, and treatment of cancer.

Position Title: Master’s Level Biostatistician

Duties and Responsibilities:
- Provide biostatistical support to cancer center members.
- Conduct appropriate statistical analysis under the supervision of faculty biostatisticians.
- Design, test, implement, validate & document statistical computer programming in high level statistical software packages including SAS and R.
- Reproducible data analysis programming skills.
- Write summary reports and create graphs for manuscripts and research proposals.

Position Qualifications:
- Degree Required: A minimum Master’s degree in biostatistics or statistics.
- Years of Experience Required: 1-2 years as a data analyst working in a team-oriented research environment.

Specific Job Requirements:
- Master’s degree in Statistics, Biostatistics, Computer Science or related field as well as 1-2 years as a data analyst working in a team-oriented research environment;
- Diverse skills in data management, programming, and statistical methods;
- SAS and R experience essential, additional programming experience preferred (e.g., SPSS, Stata, Excel, Python, C++ Language);
- Ability to work independently, take initiative, manage time and work with minimal supervision;
- Ability to analyze problems and make sound judgments;
- Ability to communicate effectively verbally and in writing;
- Ability to establish and maintain effective working relationships with others.

Salary Range: $60,000 - $72,000 annually; commensurate with education and experience.

Benefits: Full-time University TEAMS employees have access to a myriad of health, life, and other supplemental insurance plans as well as retirement, paid vacation, sick leave, and holidays.
