Masters Level Biostatisticians

Memorial Sloan Kettering Cancer Center has multiple positions available for Masters level biostatisticians. The successful applicant will engage in a wide variety of collaborative projects with medical investigators and statisticians. Duties include: helping researchers design studies, managing data, statistical programming and analysis, and interpretation and reporting of results. Projects involve the design, analysis and publication of clinical, laboratory or genomic research.

Interest/experience in any of the following areas will be strongly considered: clinical trials, EHR and other administrative data, patient reported outcomes, genomics. Qualifications include a Masters degree in biostatistics or statistics, excellent programming skills, proficiency in database manipulation, and excellent verbal and written communication skills.

Please email cover letter and CV to: EPIBIOSTATS@mskcc.org.

MSKCC is an equal opportunity and affirmative action employer committed to diversity and inclusion in all aspects of recruiting and employment. All qualified individuals are encouraged to apply.
